**Total payments over 5,000.00 Euro:**
Findings:

The balance sheet does at equalized.

Waste of revenues at the end of the year 23,345.42 Euros, (it is high financing or financing of PP does not efficiently manage the revenues), even at the end of 2011 there were 4,995.24 Euros left.

Costs presented in IS are lower than they have been, there are presented 71,203.02 while according to the report of the bank are 77,608.02 Euros, difference 6,405.00, (see IS).

Payment December/2011- two month salary (for A.Bilikiqi and F.Corogli) accrual-principle.

There is no evidence on the report of bank that the rent tax is paid.

Payments for seven (7) employees on the occasion of the Eid holiday (from 50 euros), are calculated whereas there are not paid taxes and pension contributions.

Revenues from the membership 1,458.20 E are not presented in the form of donations and contributions in cash.

Recommendations:

PP must respect the principle of consistency (succession) from period to period to understand the connection between the periods and (revenues and expenses).

The accrual principle should be respected and only revenues and expenses in the reporting period should be reported.

PP should review the financial resource left as they had financial resources left even in the previous year.

PP should pay TTTS and pension contributions for payments to physical persons and the rental tax.

Political entity upon receipt of donations from individuals must respect 03/L-174 Law on Financing of Political Parties, Article 5, paragraph 1, point 1.1 and Article 17 of Regulation 01/2008 on the registration and operation of political parties.

We recommend the establishment of PP’s regulations and procedures for the operation of internal control.
