Naam: Adres:

Figure 1 shows a schematic diagram of a four-bar linkage mechanism. The mechanism consists of four links: Link 1 (the fixed frame), Link 2 (the crank), Link 3 (the coupler), and Link 4 (the follower). Link 1 is represented by a horizontal line with a hatched area below it, indicating it is fixed to the ground. Link 2 is connected to Link 1 at point A and to Link 3 at point B. Link 3 is connected to Link 2 at point B and to Link 4 at point C. Link 4 is connected to Link 3 at point C and to Link 1 at point D. The joints are labeled A, B, C, and D. The links are labeled 1, 2, 3, and 4.

15 **Čistota voda za pitje** (Pitavila: 17)
